Geogrid for Base / Subgrade Reinforcement

Overview

Products listed in Table 1 are pre-qualified in accordance with Departmental Material Specifications (DMS)-6240, "Geogrid for Base / Subgrade Reinforcement." Table 2 presents the suppliers/ manufacturers contact phone numbers.

The Department reserves the right to conduct random sampling and testing of pre-qualified materials to verify performance and specification compliance and to perform random audits of documentation. Department representatives may sample material from the project site and the warehouse.

For more information, contact the Materials and Tests Division/Soils and Aggregates Section at 512-506-5800 or **mtd-sa-engineering@txdot.gov**.

A Buy America Status of "Compliant" indicates the manufacturer has certified the model/product/ material below is compliant with Title 23 of the Code of Federal Regulations (23 CFR) § 635.410 and Title 2 of the Code of Federal Regulations (2 CFR) Part 184 (as part of the Gold Star certification program) as classified by the Buy America Material Classification Sheet for projects federally obligated after October 1st, 2025. Products that have a blank Buy America Status require project level certification.

Pre-qualified Geogrids for Base/Embankment Reinforcement
