Junction Boxes, Manholes, and Inlets Fabrication Plants (Multi-Project)

The Department reserves the right to conduct random sampling and testing, and visual inspections of materials from approved fabrication plants. Department representatives may sample and inspect material from the fabrication plant or the project site. Materials and Tests Division (MTD) reserves the right to test samples to verify compliance with Item 465.

For more information, contact MTD's Structural Materials Section at (512) 993-7117.

Reference

Refer to the Department's Standard Specifications for Construction and Maintenance of Highways, Streets, and Bridges for information on Item 465, "Junction Boxes, Manholes, and Inlets."

Fabrication Plants

The following multi-project fabrication plants (as defined in DMS-7305) that produce precast junction boxes, manholes, and inlets have been approved in accordance with DMS-7305, "Fabrication and Qualification Procedure for Multi-Project Fabrication Plants of Precast Concrete Drainage Structures," which is referenced in Item 465.

Fabrication plants noted as Buy America Status compliant on the MPL have provided TxDOT Form 2812, "Buy America Certification," indicating compliance with Buy America requirements referenced in Standard Specification Item 6. Project level certification, therefore, is not required.

Project level certification requires completed TxDOT Form 2806 to comply with Buy America requirements.

Superscript in the Table refers to the following:

1. Approved to produce junction boxes and inlets only.
