Texas Department of Transportation

Steel Bridge Fabrication Shops

Material Producer List
Materials and Tests Division-Structural Materials Section

Steel Bridge Fabrication Shops

The Department reserves the right to conduct random sampling and testing and visual inspections of materials from approved steel fabricators. Department representatives may sample and inspect material at the fabrication shop or the project site. The Materials and Tests Division (MTD) reserves the right to test samples to verify compliance with Item 441.

The fabricator's monogram stamp will only to be placed on TxDOT-inspected product. This stamp will not be placed on product for which TxDOT has not provided Quality Assurance inspection.

For more information, contact MTD's Prefabricated Structural Materials Section at (512) 993-7117.

Reference

Refer to the Department's *Standard Specifications for Construction and Maintenance of Highways, Streets, and Bridges* for information on Item 441, "Steel Structures."

Fabrication Shops

The following Steel Bridge Fabrication Shops (as defined in Item 441) that produce primary and secondary steel bridge members (as defined in Item 441) are approved in accordance with DMS-7370, "Steel Bridge Member Fabrication Plant Qualification."

Materials and Tests Division's Structural Materials Section verifies on a per project basis that products furnished to TxDOT projects from fabrication plants, approved per DMS-7370, comply with Buy America requirements.
